

APPLICATOR TIP FOR A CORRECTIVE TAPE DISPENSER

ABSTRACT OF THE DISCLOSURE

A correction tape dispenser includes a housing and a supply spool and a take-up spool disposed within the housing. A carrier ribbon has a first end connected to the supply spool and a second end connected to the take-up spool. An applicator tip is at least partially disposed within the housing and includes a platform with a front edge, a rear edge, a first side edge, a second side edge, a top surface and a bottom surface. The carrier ribbon is disposed on the top surface, around the front edge, and on the bottom surface between its first edge and second edge. A first curved wall extends up from the first side edge of the platform and curves substantially around the platform, and a second curved wall extends up from the second side edge of the platform and curves substantially around the platform.
